

INTERNATIONAL INDUSTRIAL AND ENVIRONMENTAL TOXICOLOGY CONGRESS

International Industrial and Environmental Toxicology Congress will be held in 26-29, October 2019, Venezia Palace Hotel Antalya / Turkey. The aim of the Congress is to bring together all the professionals and academicians in this field and to discuss the latest developments and emerging risks of occupational and environmental toxicology on a scientific platform. Many national and international institutions or organizations have decided to give scientific support to this Congress.

The core topics of the Congress will be occupational and environmental diseases and cancers, genotoxicity, neurotoxicity, nanotoxicology and environmental effects, environmental pollution, occupational and environmental risk assessment, preventive and protective strategies, social impact of occupational and environmental diseases and their relationship with health systems.

In the Congress, we are planning to organize open discussion sessions and training courses based on demand. In addition, oral sessions will be held where scientists can present their original studies.

We invite you to contribute to the International Industrial and Environmental Toxicology Congress. Your participation and support will shed light on future.

Best regards,

Assoc. Prof. Engin TUTKUN, M.D., Ph.D.

Prof. Mustafa Necmi İLHAN M.D., Ph.D.
