

Welcome to the fourth in-between conference seminar from the EUPHA Section of Social Security Work and Health!

At this digital seminar we will aim to showcase the range of research going on within the research field by letting a number of researchers present their projects. We will also allow plenty of time for questions and discussions. We hope that many will take the opportunity to meet up and be inspired!

When? 19th of March at 13.00-15.00 2024 (CET)

The seminar is free and can be accessed through the following link:

<https://upf-edu.zoom.us/j/94149802836?pwd=dWlUVVBzRnNTVVFrcS9JcXVaTWZUQT09>

Meeting ID: 941 4980 2836

Access code: 784012

Presenters:

1.

René de Vries, PhD student, University Medical Center Groningen, The Netherlands

Title: *The long arm of adversity. An epidemiological study on childhood adversity, adolescent psychopathology and labour market outcomes in young adulthood*

2.

Ida Karlsson, PhD student, Karolinska Institute, Sweden

Title: *Evaluation of a problem-solving intervention with workplace involvement in primary health care, for employees on sickness absence due to common mental disorders – a cluster randomized controlled trial.*

3.

Marije Hagendijk, PhD student, Amsterdam University Medical Center, The Netherlands

Title: *Value@WORK: value-based healthcare in work-focused healthcare*

4.

Anna-Maria Hultén, Postdoc, Gothenburg University, Sweden

Title: *Early identification of primary health care patients at risk of sick leave due to work-related stress. A situated understanding.*

Hope to see you all!

Kind regards, on behalf of the Future Group
Femke Abma
